## Dressage at Devon

### Tempel Lipizzans Meet-N-Greet

Lipizzan horses have been protected by empires and sought by royalty. They've performed before presidents and been ridden by a president and a king. The steeds of legends, they are Pegasus without wings, yet still able to fly. These magnificent horses are known for their proud bearing, elegant gait, superior intelligence and enduring strength.

In the 16th and 17th centuries, many riding masters in Europe created academies where they taught sophisticated training methods, which elevated plain riding to an art form. This art of riding has survived for more than four centuries at the Spanish Riding School of Vienna and is also practiced today at Tempel Farms, home of the world's largest privately owned herd of Lipizzan horses.

The Tempel Lipizzans began in 1958 when the late Tempel and Esther

Smith imported 20 Lipizzans from the Austrian stud farm in Piber and started what became the largest privately owned herd of Lipizzans in the world.

Sunday, October 2, Dressage at Devon is pleased to host this team of talented riders and amazing horses, showcasing classical horsemanship.

Join Tempel Lipizzans for a close-up, and informative Meet-N-Greet after Sunday's performance, which is scheduled at the lunch break. Join **Esther Buonanno, Director of the Tempel Lipizzans** program, and **Julie Milne, Stable Manager**, along with members of the performance team, including the horses, for an exciting discussion on the Lipizzan horses, their history and training.
