

Friday and Saturday nights at Dressage at Devon include the exciting FEI Grand Prix Special and Grand Prix Musical Freestyles classes. You can join in the fun to compare your results to the average of other spectators and to the scores of the official judges.

Spectator Judging enables fans to get in the judge's seat and create audience scores and rankings in real-time during the competitions.

Co-innovated with SAP and created as a revolutionary new idea with CHIO Aachen in 2013 to let the audience become personally engaged in the judging of dressage and vaulting tournaments, Spectator Judging is a highly welcomed fan offering.

In 2017, Black Horse One and SAP, the market leader in enterprise application software, have joined forces bundling their expert knowledge in technology and fan engagement to present the new '[Spectator Judging](#)' app – powered by SAP technology.

The advertisement features a red background with a white horse silhouette in a circle on the right. The app logo, a magnifying glass with the number 10, is on the left. The text 'Spectator Judging®' and 'Dressage at Devon' is prominently displayed. A central image shows three smartphones displaying the app's interface, which includes a list of judges and their scores. A red circular callout on the left says 'Judge along with the Spectator Judging® App'. At the bottom, there are download instructions for the App Store and Google Play, along with the Black Horse One logo.
